Oral Health Center for People with Disabilities

What We Do

We are specialists in dentistry for people with disabilities.

♥ Dental Care (Dental Treatment, Better Eating Styles)

We provide dental treatment (in some cases using general anesthetic) to people who find it difficult to get treated at regular dental clinics. We also give advice to people having trouble eating.

We'll come to you!

♥ Dental Checks at Facilities for People with Disabilities

We provide dental checks to users of facilities for people with disabilities so as to lead to having a regular dentist.

Learn with friends!

♥ Dental Health Activities for School Students

We practice tooth brushing and talk about oral health with kids that use day services (after-school care, etc.) so as to lead to having a regular dentist.

We'll come to you!

♥ Dental Health Activities at Facilities for People with Disabilities

We practice tooth brushing and talk about oral health with users of facilities for people with disabilities so as to lead to having a regular dentist.

Learn oral health tips!

♥ Training Workshops for Supporters of People with Disabilities

Learn about the oral health of people with disabilities. We hold training workshops for those involved with people with disabilities.

Get advice and support

♥ Collaboration (Meetings)

Meetings for those involved with people with disabilities (people working in the fields of medicine, welfare, education, etc.). In these meetings you can talk with and support each other.

The more you know!

♥ Sending Out Information

We send out oral health information with flyers and newsletters such as "Pikatan Tsushin" .

Get in touch!

♥ Sending Out Staff Members

Upon request, we hold talks for those involved with people with disabilities regarding oral health, and practice tooth brushing at Special Needs Education Centers, etc.

The first thing to do is call!

♥ Advice

We give oral health advice over the phone, etc.
