6. How Candidates Are Selected for Tentative Acceptance

The Childcare Support Divisions of each Ward Office confirm the capacity of each facility and select candidates from the applicants to each facility in order of highest score (highest priority) according to the “Shizuoka City Childcare Use Criteria”.

*These criteria can be found on the city website (Japanese only)

7. Fees to be Borne by the User (Childcare Fees)

(1) Determination of Childcare Fees

There are no childcare fees for children attending 3-to-5-year-old classes and for children attending 0-to-2-year-old classes who come from households exempt from municipal residence tax, households receiving welfare payments, or foster parents households. The childcare fees of the eldest child from families not exempt from municipal residence tax attending 0-to-2-year-old classes are calculated according to income, etc. There are no childcare fees for the second child onwards. (See 7(2) regarding reductions for multiple siblings)

*Lunch fees, learning material expenses, etc. are required in addition to childcare fees.

- Childcare fees are calculated based on the municipal residence tax amount of the parent who lives with the child and contributes the most to household finances.
- Fees are set using brackets according to the child's certification type, the amount of childcare required, and the amount municipal residence tax (income portion), etc. levied on the household.
- Even when the child reaches 3 years of age and certification type shifts from Type 3 to Type 2, the fees for certification type 3 will continue to apply for the remainder of that fiscal year.
- If, under tax law, the child or their parents are the dependents of the child's grandparents, or if the child's parents have close to no income, the municipal residence tax amount of the highest-earning grandparent with the living with the child will be included in calculating childcare fees.
- Childcare fees are reviewed every year in September. (The fees up until August are decided based on municipal residence tax for the 2024 fiscal year, and the fees from September to March are decided based on municipal residence tax for the 2025 fiscal year.)
- If you do not declare your municipal residence tax, your childcare fees may be set at the highest bracket (D16). Even if you do not have an income, please make sure to declare your municipal residence tax.

(2) Reduction for multiple siblings

Regardless of bracket for childcare fees, there will be no childcare fees for the second child onwards when attending 0-to-2-year-old classes. Children in the household are numbered in order of age from amongst the children in custody of and sharing finances with the parents, regardless of siblings' ages or whether they are enrolled in a childcare facility.

(3) Other payment reduction measures

Households falling into bracket B, C, or D1-D4 for the childcare fees of their first child attending 0-to-2-year-old classes, to whom any of the below applies, may receive a fee reduction starting from the month after making a request.

- The child, parent, or a member of their household has a physical disability certificate, a medical rehabilitation handbook, or a mental disability certificate.
- Single-parent households (does not include separated households undergoing divorce agreement/mediation)

(4) How to pay the childcare fees

- Public Accredited *Kodomoen*, Daycare Center for Waitlisted Children, Private *Hoikuen*:

 - The transfer date is the final day of each month, or the next working day if the bank is not open on that day.
- Private Accredited *Kodomoen*, Small-scale Childcare Facilities, Workplace Childcare Facilities:
 - Please pay directly to the facility. Inquire directly to the childcare facility regarding payment dates and methods.

*The childcare fee chart, instructions on how to determine your municipal resident tax income portion amount, etc. can be found on the city website.

(Scan the QR Code; Japanese only)
