

Disaster Prevention Information Site Launches Sat 1 April

This site allows you to easily see information from the city regarding evacuations and weather on your smartphone or computer during a disaster. Favorite it now to make sure you have quick access to it during a disaster.

Site URL → <https://portal.bosai.city.shizuoka.jp/>

- Check disaster information
- Check what evacuation orders have been issued in the city
- Check which evacuation centers have been opened
- Check weather and emergency information from the Shizuoka City Disaster Prevention Email Service
- Easily access transport and utilities information

“Comprehensive Information Site during Disasters” scheduled to be operational from October 2024.

From current disaster status to support information, this purpose-built site gathers the information you want to know during a disaster for easy viewing. The site not only contains information from the City, but also allows users to share disaster information regarding their surroundings, leading to speedy disaster response.

Inquiries: Risk Management Center, TEL054-221-1243
