Child Allowance and exceptional benefits for Feb-May will be transferred on Tues 13 June

The allowance will be transferred to those who were recipients as of the end of May. For those who submitted authorization request documents for the Child Allowance or exceptional benefits in mid-May or later, the transfer will be made in July or later.

*In general, you will start receiving the Child Allowance or exceptional benefits for the month following the month in which you submitted authorization request documents. Please be aware that if you are late in submitting the documents, you will not be able to receive the allowance for that month.

Application Required

The city will subsidize medical fees occurring from health-insurance-covered treatments of single parent households and households with parentless children that were exempt from income tax in FY2022. Application is required in order to receive these subsidies. Households subject to tax may still be eligible for the subsidies depending on the number and age of the children in the household.
