

7. Health Checks for Children Starting Elementary School

Inquiries: Student Support Division ☎054-354-2518

The parents of children starting elementary school in April 2024 (children born between 2 April 2017 and 1 April 2018) will be sent a “Start-of-School Health Check Notification” (就学時健康診断通知書, *shugakuji kenko shindan tsuchisho*) in the mail. This will contain information on when and where to take your child for their health check. The health checks will be done at local elementary schools from late October to late November this year. *If you do not receive a notification by Fri 20 October, please contact the Student Support Division.

If, due to illness etc., your child is unable to attend the health check being held at the designated elementary school on the designated date, please go to a health check being done at a nearby elementary school on another day. (In this case, please contact both the originally designated elementary school and the school at which your child will actually receive the health check.) Even children who are planning to enter a private school must attend a health check at the elementary school designated in the Start-of-School Health Check Notification.

For more information, see the City website or your Start-of-School Health Check Notification.
